

## 品項名稱

**Veeam Backup for Microsoft Office 365 備份訂閱版**(含原廠三年7\*24 電話支援及保固內軟體免費下載升級)

## 產品介紹

**Veeam Backup for Microsoft Office 365** 是一種全面的解決方案，可備份和還原數據Microsoft Office 365。確保使用者與業務的郵件與資料可用性，安全備份到企業內部的環境存放，能針對個別信箱項目進行快速與細緻的復原，而且提供進階搜尋功能，便於查找已歸檔的郵件，並進行彈性的復原與匯出。為用戶存放在Office 365 的資料，提供備份還原、透明管理、符合法規遵循要求等安全性。

## 商品特色

減輕了丟失對Office 365 數據的訪問和控制的風險，從而始終保護和訪問數據。能夠安全地備份Office 365，並：

- 保護您的 Office 365 資料免於意外刪除、安全威脅和保留原則落差
- 快速復原單一的 Office 365 項目和檔案，並享有領先業界的復原彈性
- 遵循法律與法規，對 Office 365 備份封存進行有效的電子化搜尋
- 使用與 Office 365 相同的 API 來備份 Exchange 和 SharePoint 內部部署，以便減少對資料中心的影響，並藉此更頻繁地備份使用者的資料
- 將備份儲存在您選定的位置，包括內部部署、超高速公用雲 (即 Microsoft Azure 或Amazon Web Services) 或本地服務供應商
- 透過多種業界領先的方法，直接還原 Office 365 項目，為您提供卓越的還原彈性通過有效的 Office 365 備份項目電子發現滿足法律和合規性要求

## Veeam Backup for Microsoft Office 365

# Total access, control and protection of Office 365 data

Microsoft provides a wide array of powerful services within Office 365 — but a comprehensive backup of your Office 365 data is not one of them.

**Veeam® Backup for Microsoft Office 365** eliminates the risk of losing access and control over your Office 365 data, including Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams — so that your data is always protected and accessible.

### With Office 365, it's your data

Microsoft Office 365 enables your enterprise to work anywhere, anytime without the need to host your own email, files and content management infrastructure. Even though Microsoft hosts the infrastructure, this doesn't replace your responsibility of maintaining a backup of your business-critical Office 365 data.

**With Office 365, it's your data — you control it — and it is your responsibility to protect it.**

With Veeam Backup for Microsoft Office 365, you can:

- **Protect your Office 365 data** from accidental deletion, security threats and retention policy gaps
- **Quickly restore individual Office 365 items and files** with industry-leading recovery flexibility
- **Meet legal and compliance requirements** with efficient eDiscovery of Office 365 backup items

### What's new in version 4

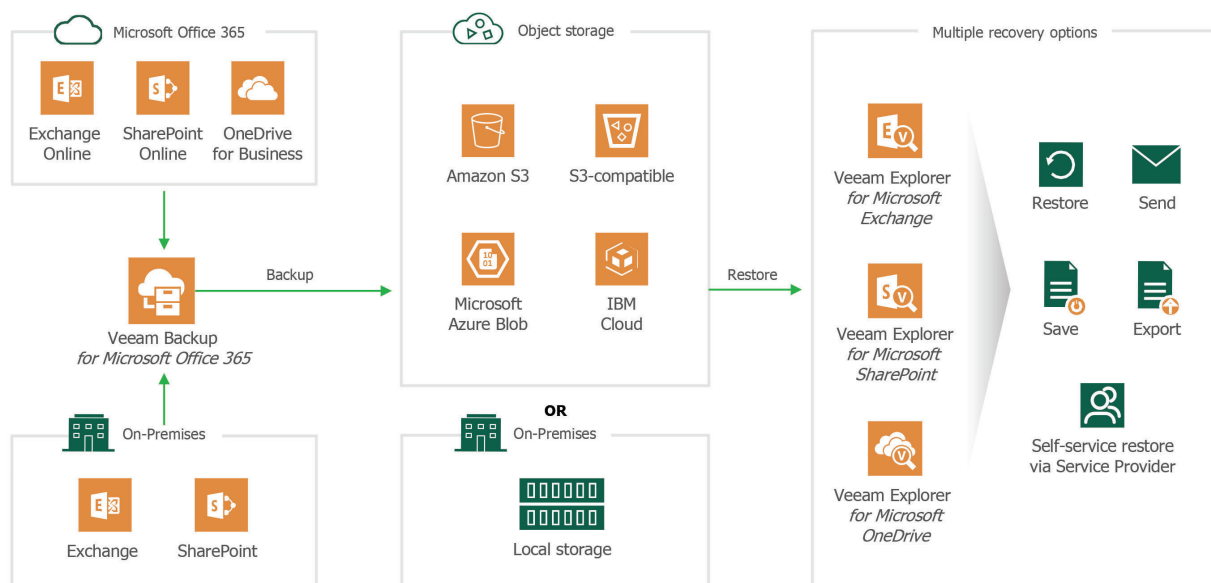

**NEW** Veeam Backup for Microsoft Office 365 v4 delivers a **cloud-optimized deployment option specifically for cloud-first companies**, where you can leverage **cost-efficient object storage** to store your Office 365 data — including AWS S3, Azure Blob, IBM Cloud and S3-compatible providers — and:

- **Reduce costs with object storage** and only pay for what you consume
- **Leverage unlimited scalability** with unlimited storage capacity
- **Simplify deployment in the public cloud** with no complex planning

Version 4 also includes added security with at-rest encryption for data in object storage and faster backup performance for SharePoint Online, OneDrive for Business and more!

"With Veeam Backup for Microsoft Office 365, our customers will sleep soundly knowing that their emails are fully safe."

Jérémy Verda,  
Executive System Engineer  
Logical TIC SPRL

## Back up Office 365 to any location — on premises or in the cloud

- Retrieve Office 365 Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams data from a cloud-based Instance of Office 365 and uniquely back up your data weekly, daily or as often as every five minutes in Microsoft's native format — an archive database based on Extensible Storage Engine (ESE), also known as the Jet Blue database
- Back up Exchange and SharePoint on premises, reducing the impact to your data center and allowing YOU to set the frequency and timing of your backups
- Store backups in the location of your choice — including on premises, in a hyperscale public cloud (i.e., Microsoft Azure or Amazon Web Services) or with a local service provider
- Protect data posted and shared with Microsoft Teams chats, files and sites, as Teams data is journaled into Exchange Online and SharePoint Online

## Restore Office 365 with industry-leading recovery flexibility

Never settle for less than reliable, granular restore of Office 365 email items, SharePoint sites, documents, libraries and lists, as well as OneDrive for Business accounts, files and folders in a few simple clicks:

- Quick search and granular recovery of individual objects — including Microsoft Teams data — residing in a protected copy of your Office 365 backup
- Direct restore of Office 365 items through an industry-leading number of ways, giving you ultimate restore flexibility

## eDiscovery of Office 365 data

Without an easily accessible copy of your data, retrieving emails for regulatory or compliance reasons can be costly, time-consuming and a major disruption to your business.

With Veeam, you can leverage the familiar advanced search capabilities and the flexible recovery and export options to perform eDiscovery on Office 365 data — just as easily as you would with a traditional on-premises data backup.

"With Veeam Backup for Microsoft Office 365, we can **take back control** of our mailboxes. We can have our own off-site repository for safe keeping and we can recover lost emails with ease."

Gary Meers  
Chief Technology Officer  
saberVox

## Meet security and compliance requirements

Security and compliance concerns are big drivers for the need to back up Office 365:

- Store data based on long-term retention policies for regulatory or compliance needs
- Ensure you recover exactly what you need — no more, no less — with granular advanced search and find functionality
- Increase security for Office 365 backup data with multi-factor authentication

## Efficiently scale and minimize overhead

Unmatched scalability with a multi-repository, multi-tenant architecture, and comprehensive automation with full PowerShell and RESTful API support, as well as self-service restore for service provider's customers

## Manage hybrid Office 365 environments

Veeam Backup for Microsoft Office 365 also allows you to protect hybrid email and SharePoint deployments, as well as migrate mailbox data between on-premises Exchange and Office 365.
