

透過警示和報告達成高效的合規管理目標

- Datiphy合規評估報告監控資產，用戶，特權，應用程式和數據庫物件
- 通過警示將違規事件依嚴重和急迫性做排序
- 將數據交易活動及時分類，提供迅速產生報告的能力

- 部署有效的監控機制，方能使合規管制產生預期效果
- 製成合規報告以評估目前企業安全控管措施是否有潛在漏洞
- 在任何惡意攻擊行為有機可乘前，就能夠辨識威脅採取適當防護措施
- 企業最重要的資產 – 數據能及時監控

Compliance Summary

- Database instances: 20
- Users affected: 364
- Events: 6,356

Compliance Assets

- Database instances are assets where all sessions, user activities, transactional events, etc. occur.
- Users affected describes the various database states that were triggered during the compliance assessment period.
- Events are the aggregate of database sessions and user activities that affected regulatory compliance monitoring.

Compliance Events

Below is a summary of your compliance assessment report. All events are grouped by database servers and database instances. Within each instance, all events from a session are grouped by users. Expand each section to determine activities that may affect your compliance controls.
