

From strategy to execution powering work at every level

Connect and streamline processes at every layer of your organization ensuring that everyone is moving the needle towards unified business objectives.

Connected, high-performing teams

Streamlined end-to-end processes

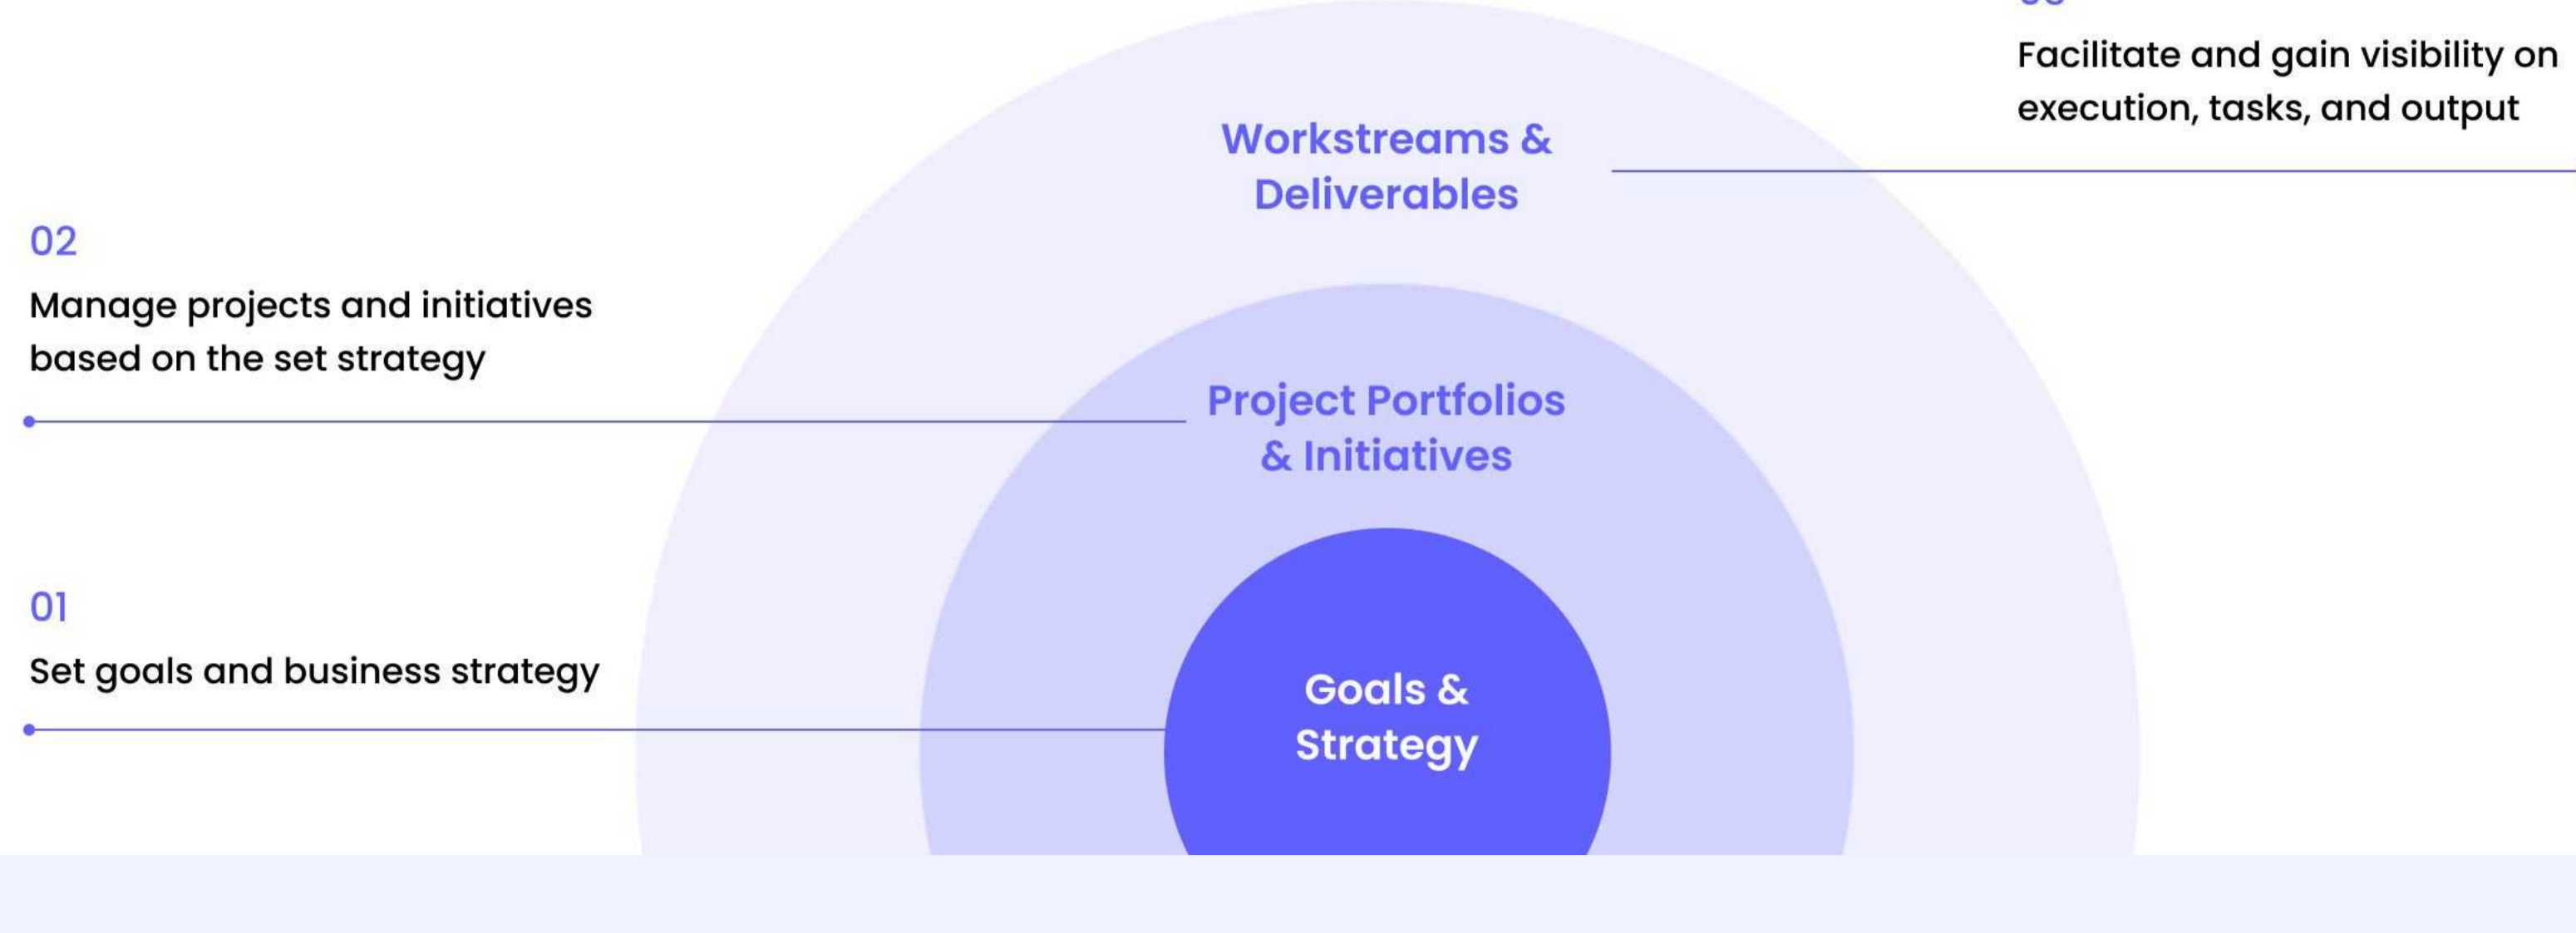

Quick and informed decision-making

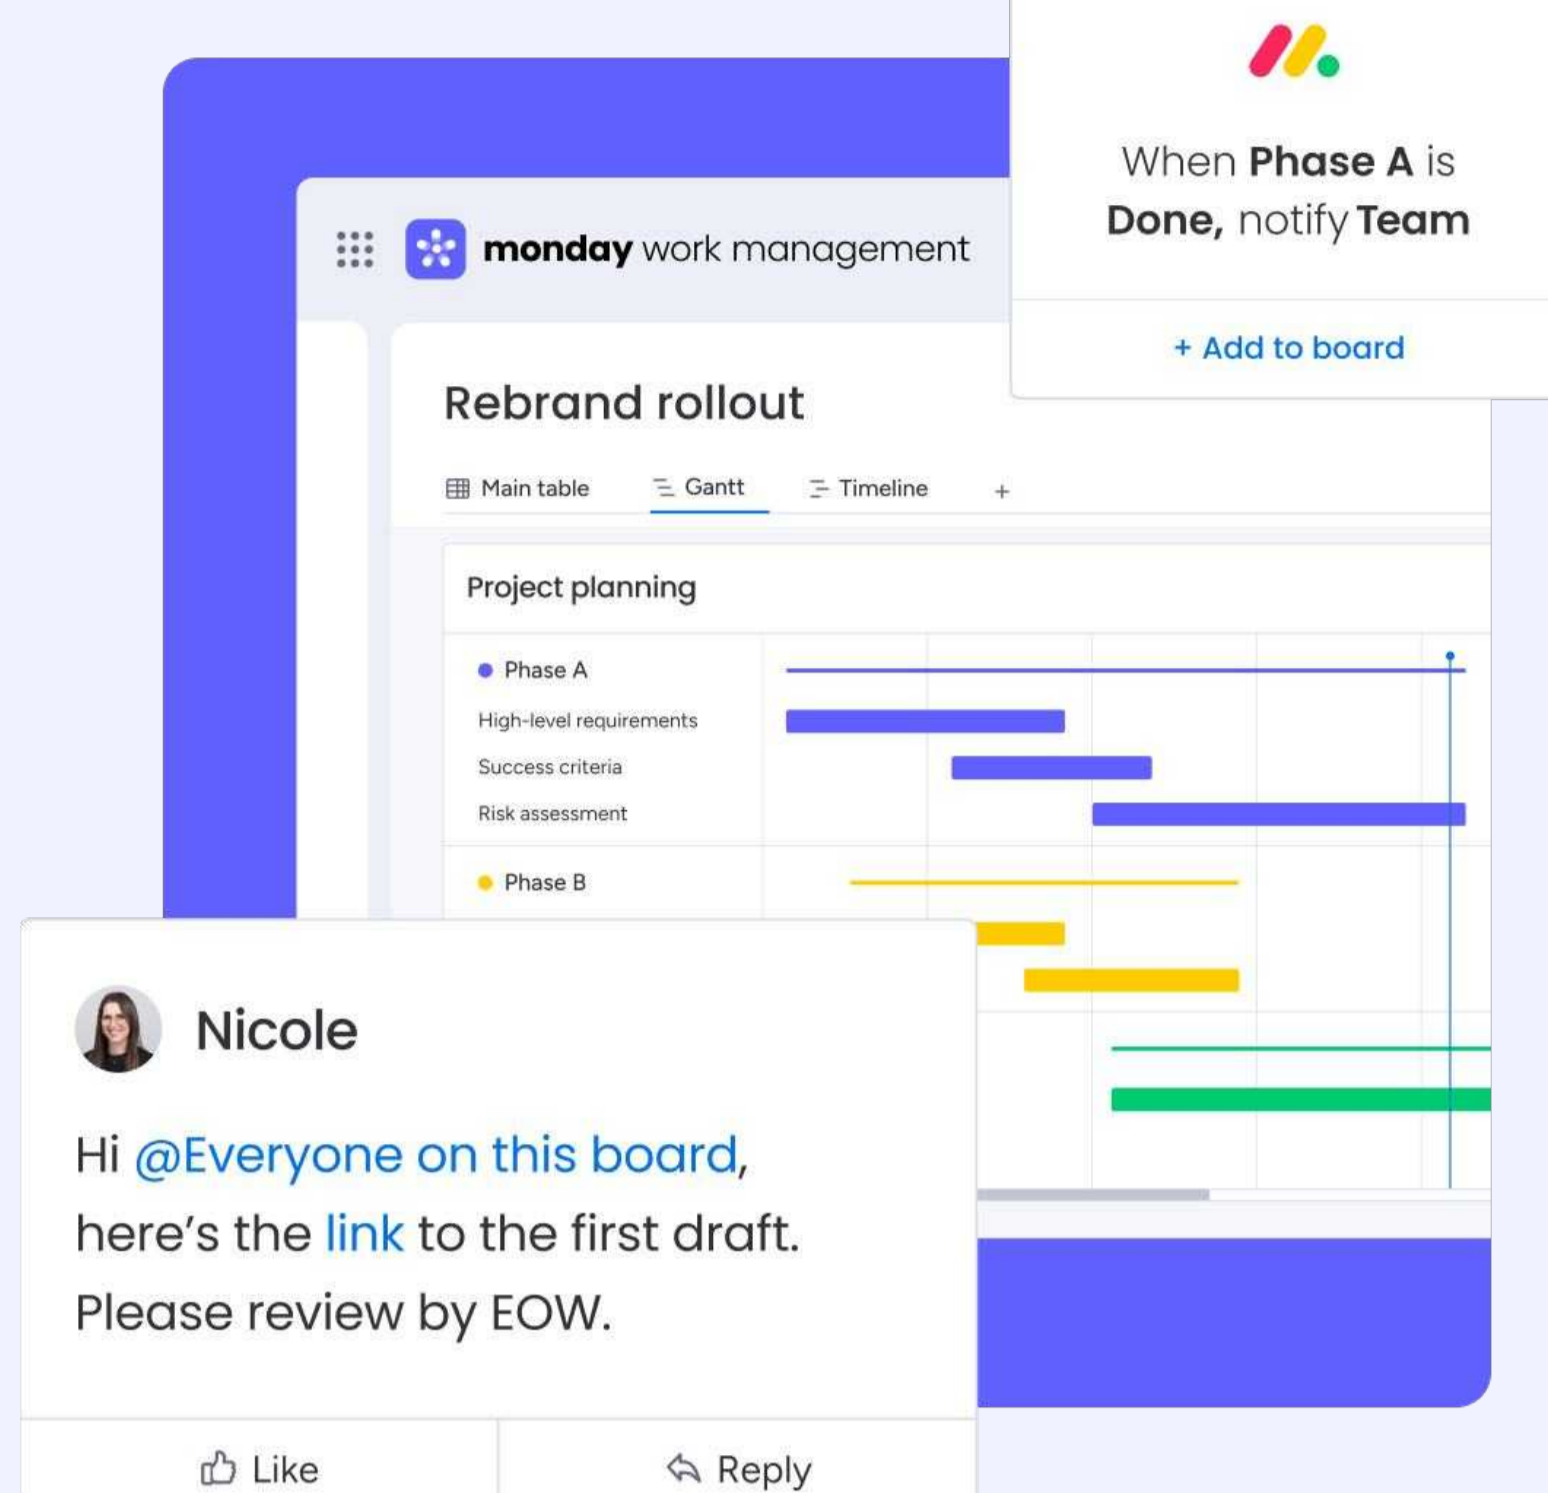

Holistic view into progress and results

Drive growth through clarity and alignment

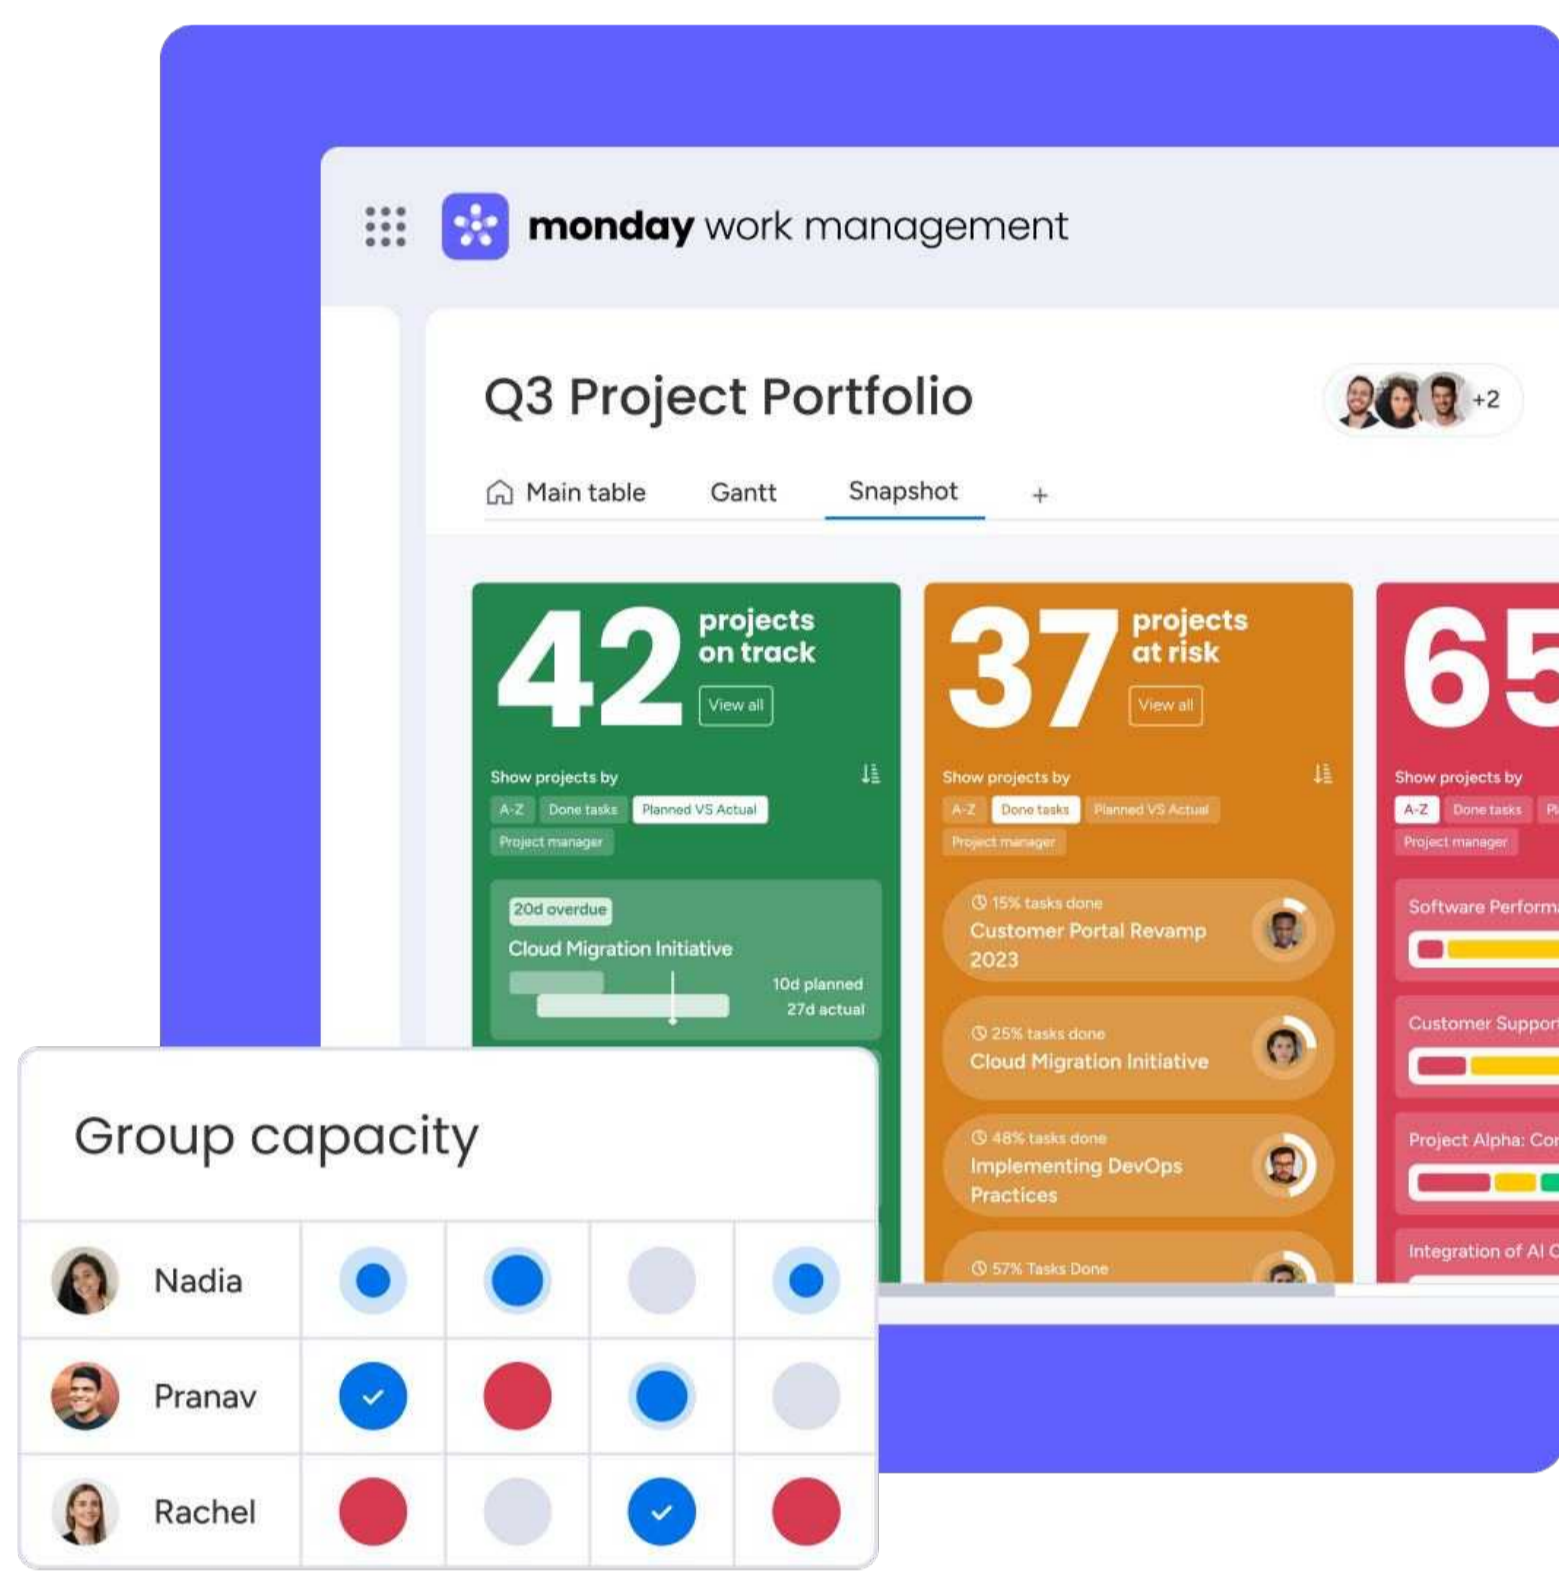

Bring teams together to execute faster and efficiently

- Streamline projects and processes in one place where everyone can see where they stand.
- Increase productivity with automations and monday AI, giving talent time to focus on work that matters.
- Foster collaboration by allowing teams to communicate within the context of their work.

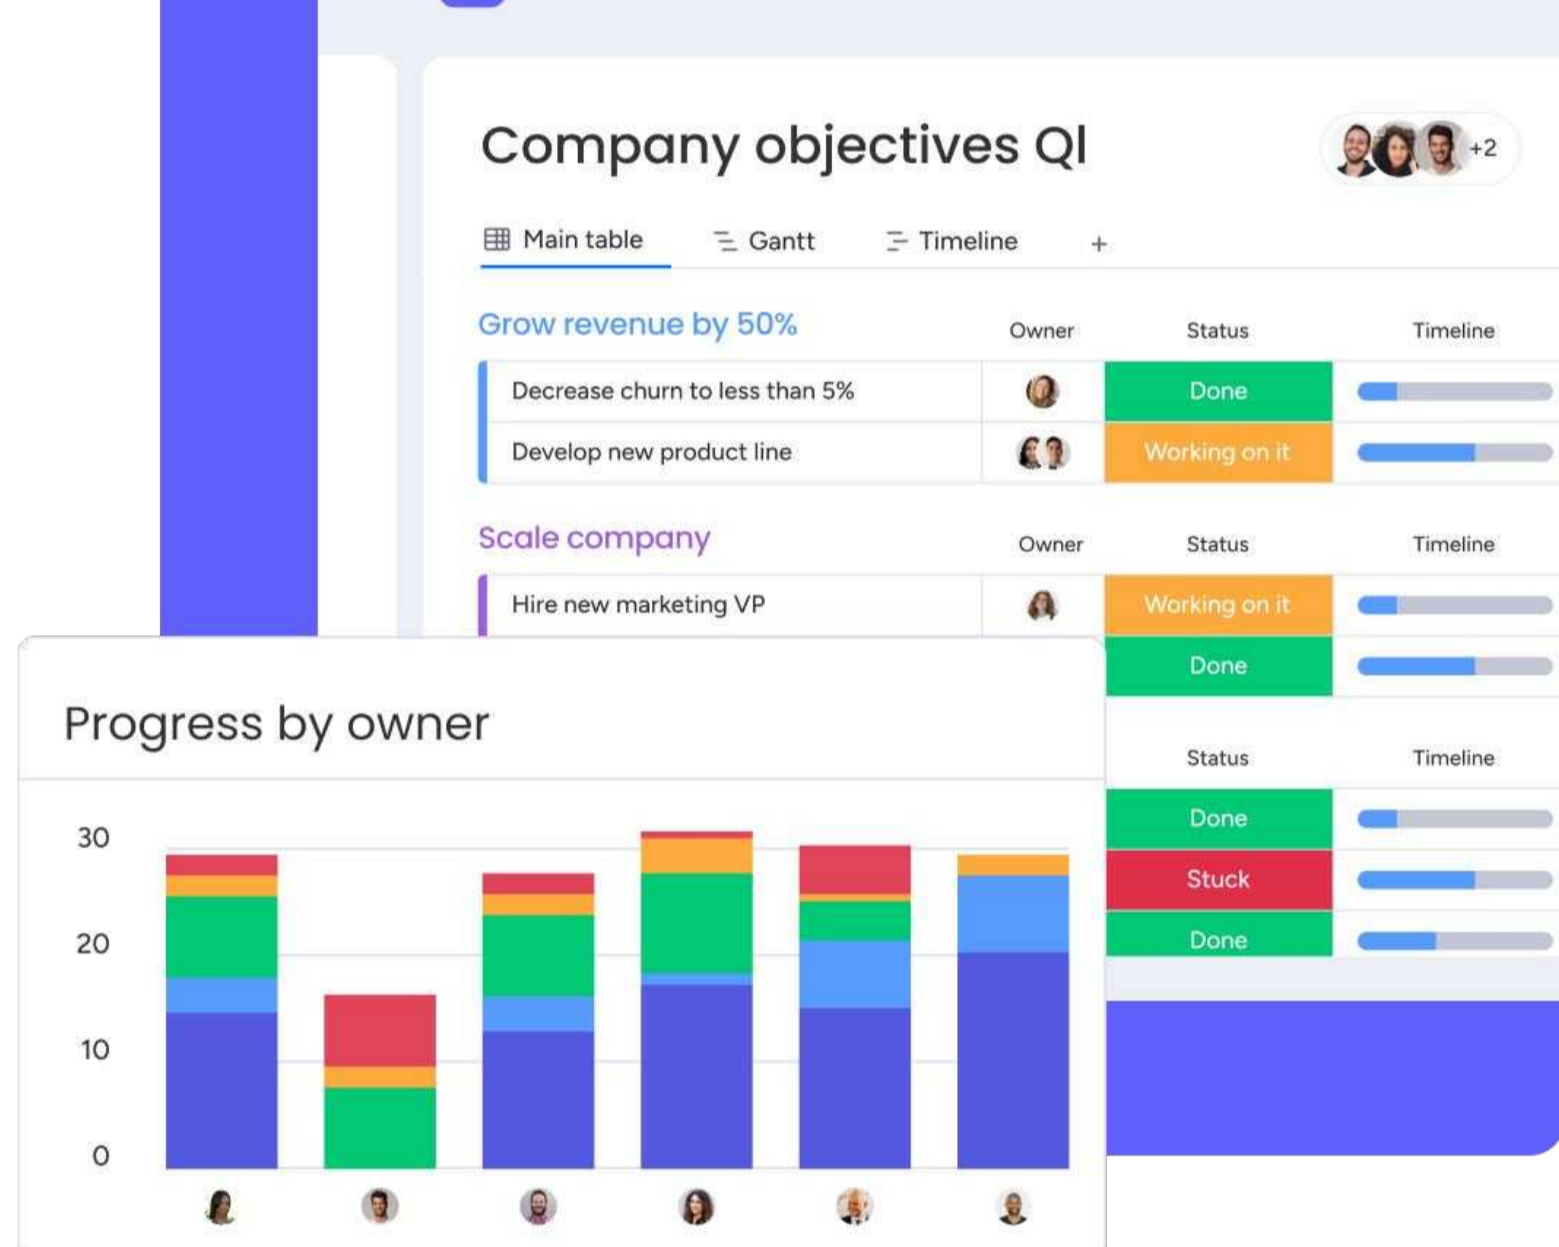

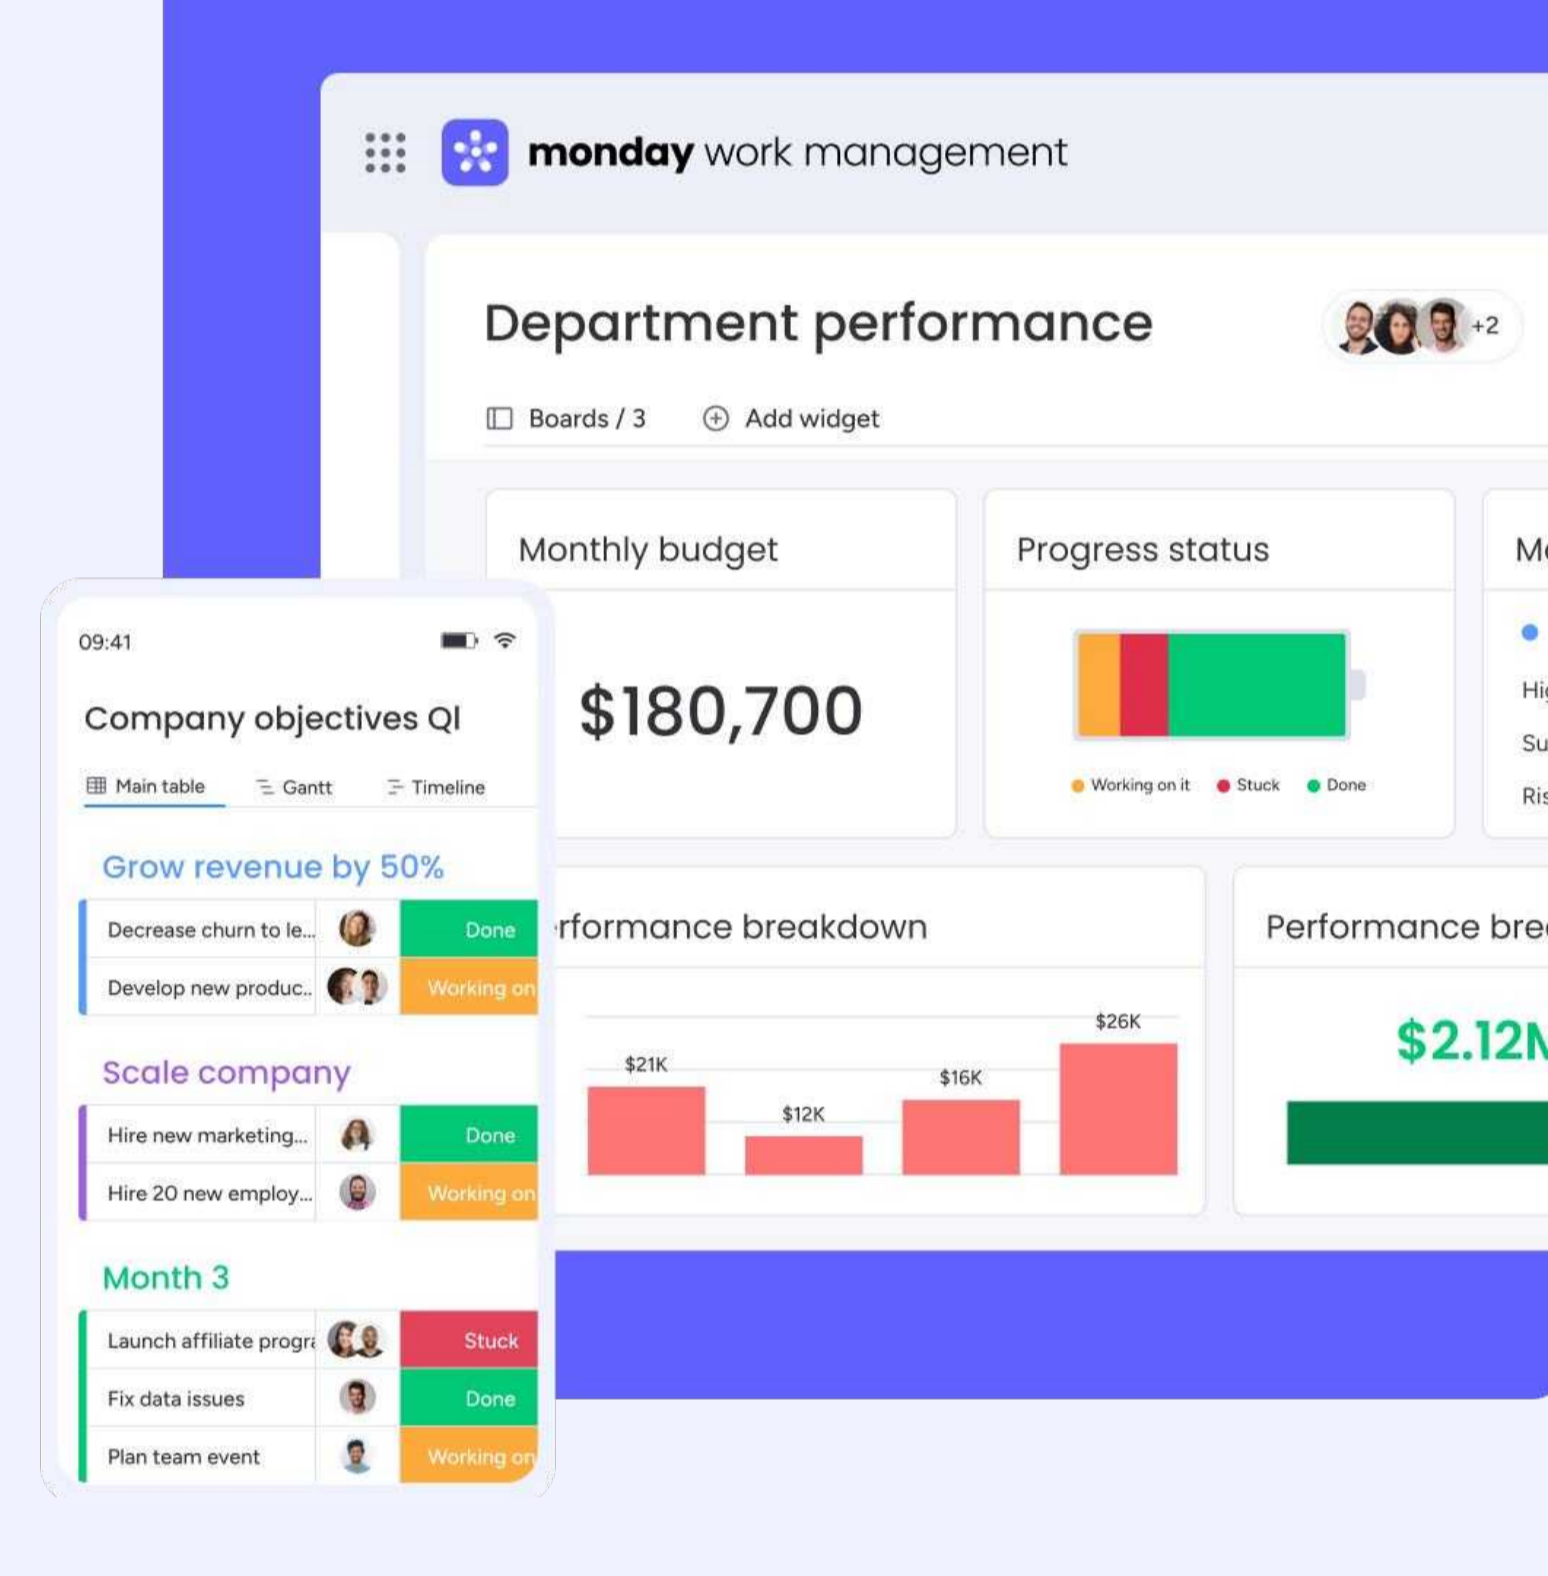

Make informed decisions and plan strategically

- Centralize projects under one portfolio, from intake processes to execution and risk identification.
- Plan, manage, and monitor projects in any methodology to keep everything on track.
- Manage and allocate resources in real-time, with a view of current workload and scheduling.

Gain deeper insights with cross-organization visibility

- Get a high-level view of all work activity using customizable reports and dashboards.
- Collate data from multiple boards to create digestible views, real-time analytics, and insights.
- Easily share custom reports with relevant stakeholders.

Set goals and implement them across business units

- Define cross-org objectives, and drill down into key results, to align departments and assign ownership.
- Set and manage your roadmap to ensure your company's objectives are accomplished.
- Get a high-level view of your teams' processes to make sure everyone is moving towards your shared goals.

Manage everything in one connected space

- Goals and OKRs
- Portfolio management
- Project management
- Business operations
