

Cisco Webex Video Integration for Microsoft Teams

Product overview

Many modern workplaces today have a mix of different vendors across their collaboration and extended productivity portfolios, making interoperability and integrations crucial to enable and retain work productivity. Cisco Webex® Video Integration for Microsoft Teams is designed for customers that standardized on Cisco® Webex Rooms and other Session Initiation Protocol (SIP) standard video devices and use Microsoft Teams for a meeting solution. It enables customers to connect these devices to Microsoft Teams without having to deploy a third-party interoperability solution.

Cisco Webex Video Integration for Microsoft Teams is a Microsoft Certified third-party solution based on [Cloud Video Interop \(CVI\) for Microsoft Teams](#).

Features and benefits

Use your Cisco Webex Rooms or other SIP devices to join CVI-enabled Microsoft Teams (typically your own company's meetings). Table 1 outlines the features and benefits of the Webex Video Integration for Microsoft Teams within an organization.

How to buy

Table 1. Features and Benefits

Feature	Benefit
One-Button-To-Push (OBTP) join experience with Webex Calendar Service	The optimal user experience is provided with OBTP provided by Cisco Webex Hybrid Calendar Service . Easily and quickly join meetings by pressing a join button when it's time to attend the meeting.
Direct dial or Interactive Voice Response (IVR) when OBTP is not available	If a device has not been OBTP-enabled, users can still join from their SIP device of choice via direct dial-in or IVR.
Webex supported layouts	Users enjoy an optimized user experience, with the ability to focus on what's important to them by taking full advantage of multi-screen systems and flexible layout options.
Bi-directional content sharing (via physical connection or wireless for on-premises device(s))	Users can connect their laptop to a Webex Room device in order to share content during their meeting. With flexible screen layouts, users can decide on the best user experience to view someone else's sharing.
Full roster list	Attendees gain full visibility into who joined the meeting, including any other Cisco Webex Rooms as well as Microsoft Teams devices.
Lobby management	Cisco Webex Video Integration for Microsoft Teams follows the Microsoft Teams lobby policy, simplifying management and increasing meeting security.
Webex Control Hub-based configuration	Streamline the admin experience via a centralized configuration.
