

What is the Intelligent Edge?

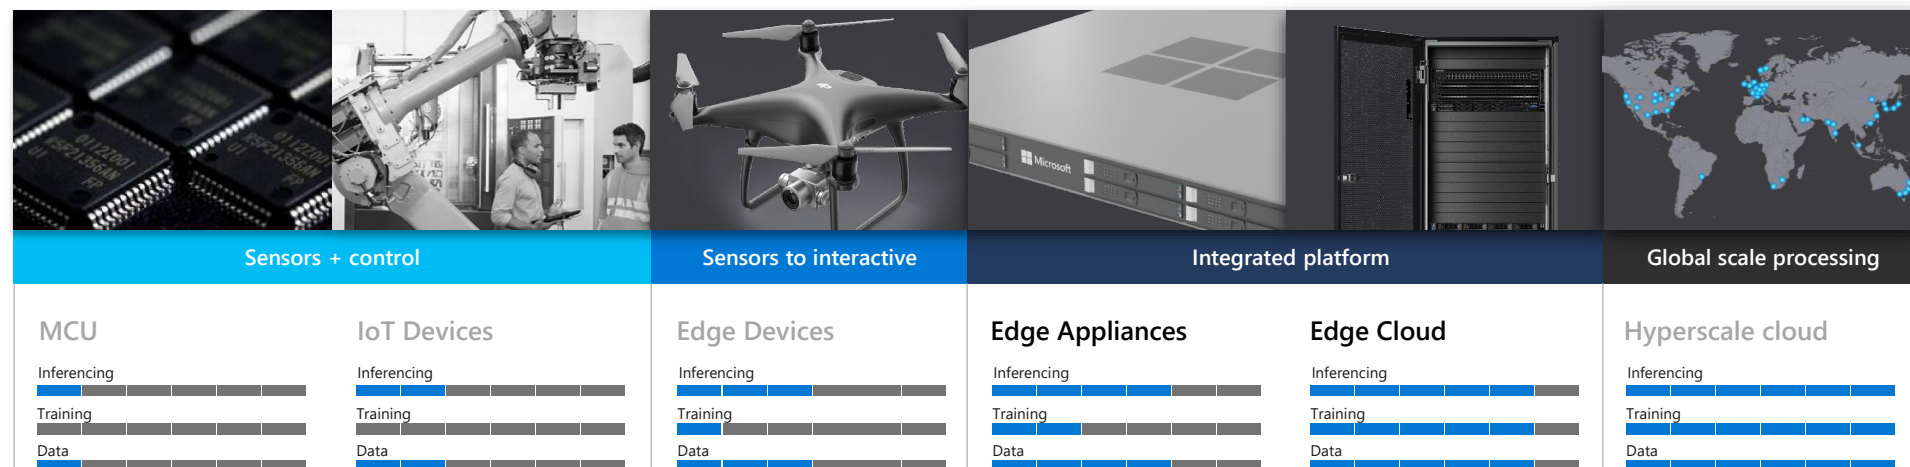

"Around **10%** of enterprise-generated data is created and processed outside a traditional centralized data center or cloud.

By 2025, Gartner predicts this figure will reach **75%**"

Gartner, Oct. 2018

Intelligent Edge to Intelligent Cloud

← Less aggregated data and insights Less AI functionality	Full spectrum of data collection and aggregation using Azure Storage Azure AI functionality availability based on computational resources	More aggregated data and insights Most AI functionality →

Azure Stack portfolio

Extend Azure to build, deploy, and operate hybrid applications across cloud, datacenter and edge

Azure Stack HCI

Hyperconverged solution

Scalable virtualization and storage

Remote branch office

High-performance workloads

Azure Stack Edge

Cloud managed appliance

Machine learning at the edge

Edge compute & IoT solutions

Network storage gateway

Azure Stack Hub

Cloud-native integrated system

Azure connected or disconnected cloud

Data sovereignty

Application modernization
