Feature Introduction

NEW

AI VIDEO & IMAGE BACKGROUND REMOVER

365 FOR MAC

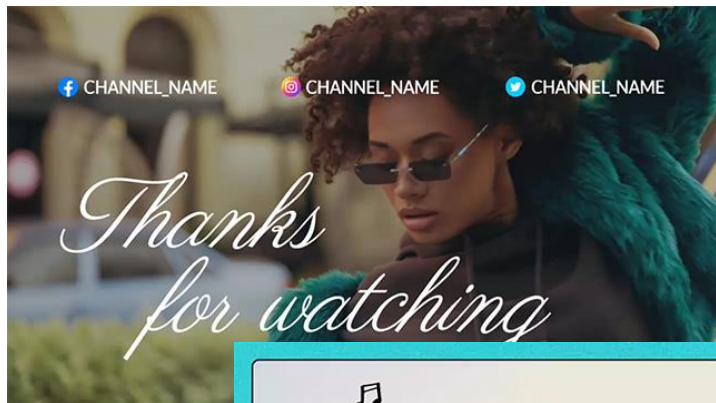

Flawlessly remove backgrounds from your footage or automatically cut out objects of interest from videos or images to add to multiple templates.

Blow your users away with stunning visual effects that auto-wrap to the contours of your moving body.

Apply AI effects up to 76% faster and enjoy an accelerated launch time to produce videos at top speeds with native support of Apple Silicon's CPU, including M1, M1 Pro, and M2 processors.

End your YouTube, TikTok, or Instagram videos with short, high-quality, and engaging sign-offs. Add outros to your videos with customizable templates.

Layer, shape, and blend like never before
with enhanced keyframe controls.

Transport your scenes to impossible locations with beginner-friendly green screen effects with Hollywood-level results.

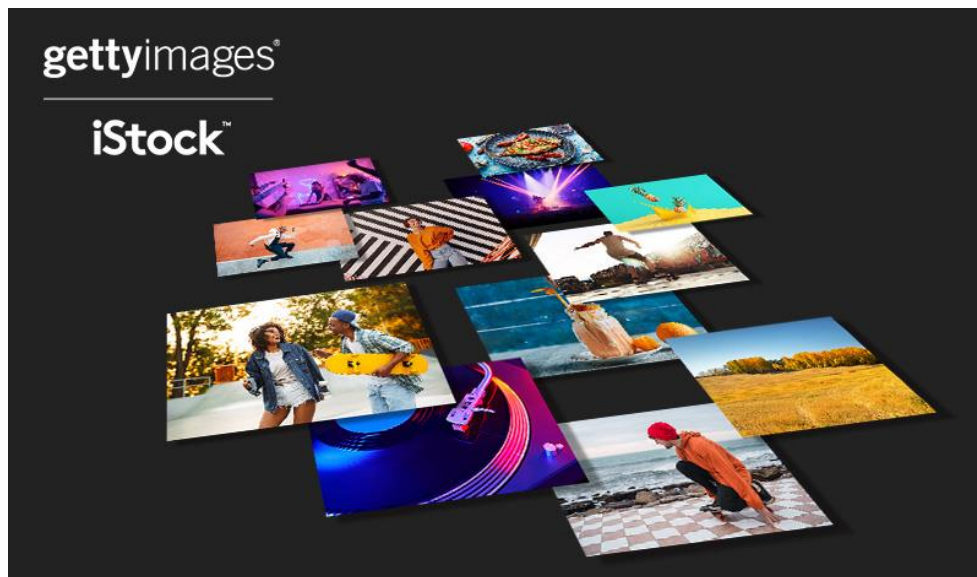

AI Wind Removal

Remove gusts of wind for crisp, clear, distraction-free audio.

AI Speech Enhancement

Reduce unwanted background noise for refined, high-quality vocal tracks.

Expand your creative horizons with access to millions of royalty-free videos, images, and music from iStock by Getty Images and Meta Sound Collection. You'll have all the content you need to create your masterpiece.

Make your impression with hundreds of customizable drag-and-drop titles and animated motion graphics.

Transitions

Choose from a variety of styles to seamlessly connect your shots.

Visual Effects

Transform the look of your video with mind bending special effects.

NEW PACKS EVERY MONTH!

Unlock a vast collection of titles, transitions, and presets to fulfill your creative vision.

BACKGROUND MUSIC TRACKS & SOUND EFFECTS

365 FOR MAC

NEW PACKS EVERY MONTH!

Always find the perfect soundtrack for your videos from our ever-growing library of hundreds of background music tracks and sound effect clips.

Appendix
