Precision Color Grading and Effects

Go beyond color correction with realistic simulations of light, sparkles, or lens flares. Now including the all new Halation Effect

Halation effect is a light effect that takes on a hazy, glowing ring or aura around bright light sources, such as highlights or strong light points. It's dreamy and ethereal nature is a highly sought after light effect.

This pro-level editing tool will soften your images without sacrificing sharpness and clarity of light within your shot.

Sparkle Effect automatically detects a light source in your footage and enhances it with individual, fully customizable and animated sparks of light.

Give your footage an authentic “aged” look. Draw focus or simulate signal loss for an instant Hollywood-esque look.

## **Color Splash**

Isolate a color and adjust intensity to stylize your footage.

## **Split Tone**

Adjust highlights, mid-tones, and shadows to achieve image balance and consistent style.

Import and export Lookup Tables (LUTs) to change the mood and give your footage a cinematic contrast.

Automatically replicate the color tones from any reference video. Fine-tune your look with enhanced color match controls.

## Professional Scopes

Eliminate the guesswork with tools to measure and evaluate color in an image. Be confident in your edits and ensure uniformity among shots.

- Histogram
- RGB Parades
- Waveform

### **Waveform Scope**

Easily evaluate the light and dark elements in your footage, no matter the quality of your monitor.

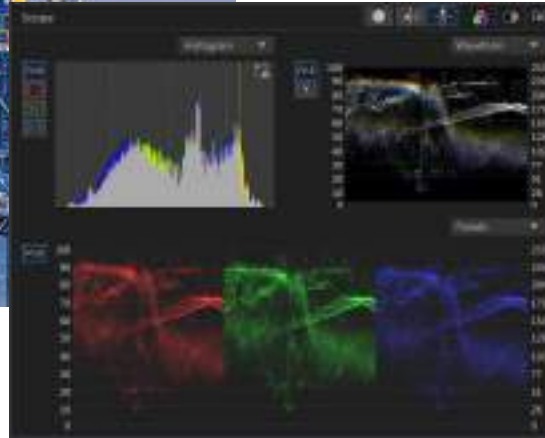

### **Parade Mode**

Quickly inspect the color balance of your shots with the red, green, and blue color channels.

Undock and view your scopes simultaneously for a seamless color grading workflow.

Manipulate colors, customize presets, and control the intensity of your effects.

Create the perfect color effect for a premium cinematic feel. Apply a mask or create multiple color changes within a single clip with keyframes.

## **AI Powered Motion Tracking**

Track objects in your videos targeted color grading.

## **Green Screen Maker**

Turn any background or object into a customizable green screen.
