Cybersecurity Team

eCloudvalley Digital Technology (ECV)

At eCloudvalley (ECV), we specialize in cloud computing technology to **transform traditional IT infrastructure and processes** and to **deliver tangible results that drive our clients' businesses forward**.

We have built an extensive ecosystem of technology partners that enable us to provide a complete suite of cloud solutions, allowing our clients to achieve their digital transformation goals.

A Trusted Global Partner in Accelerating Customers' Digital Transformation in the Cloud.

1st

AWS Premier Tier Services Partner
in APAC Region

10yrs

Worth of Experience & Expertise

680+

AWS Cloud Certifications

5000+

Satisfied Clients Across Global

Our Recognitions Across APAC

2017-2019

- 2017 AWS Premier Consulting Partner
- 2018 AWS Partner ConneXions - Most Valuable Partner(MVP) of the Year
- 2018 AWS Partner ConneXions - Mountain Mover

2020-2021

- 2020 AWS Consulting Partner of the Year (ASEAN)
- 2021 AWS Consulting Partner of the Year (Philippines)
- 2021 AWS Consulting Partner of the Year (Taiwan)
- 2021 AWS SAP Partner of the Year

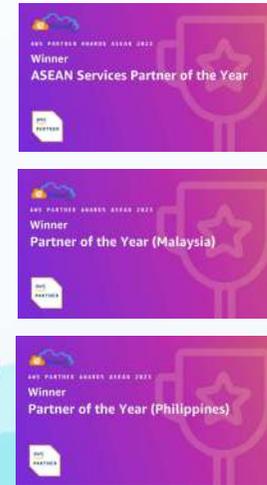

2022

- AWS Services partner of the year (Hong Kong)
- AWS Solution Provider of the Year (Taiwan)
- AWS Specialized Partner of the Year (ASEAN)
- AWS Services Partner of the Year (ASEAN)
- AWS Partner of the Year (Malaysia)
- AWS Partner of the Year (Philippines)
- Became a member of the Cloud Security Alliance

2023

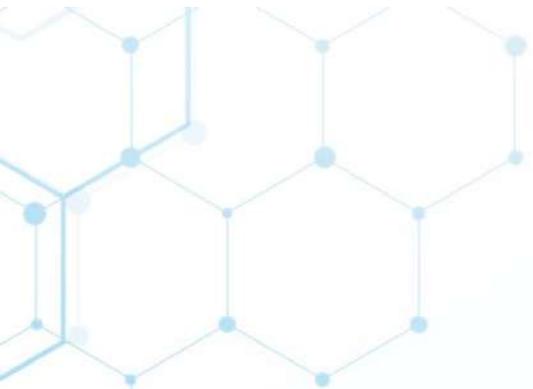

- AWS Services Partner of the Year (ASEAN)
- AWS Partner of the Year (Malaysia)
- AWS Partner of the Year (Philippines)
- NetApp Hong Kong Partner of the Year FY23 Award - Public Cloud
- VMware Hong Kong Best Performance Award Cloud Marketplace Pioneer FY23

Service Items Components

Service type	Service Items
MSSP-Cloud Native SOC with Cloud Detection & Response	7 x 24 Cloud Native SOC
	ECV Cloud Security Best Rule Library
	SOAR Integration (Automated Security Operations (SecOps) Workflows
	Near-Real Time Managed Alarms & Basic Dashboards
	Supervised Active Cyber Threat Intelligence-Open Sources Feeds and Commercial Feeds
	Incident Notification (Automated Security Events Triage & Notification)
	Extensive AI-Powered Insights & Threat Hunting
	Incident Response (Free for the first 2 hours, after that needed to quote separately) ^[1]
	Quarterly Credits Optimization Recommendation
	Curated Monthly Security Reports
	Sumologic License Credit Table: (per month average usage) Continuous Analytics: 20 credits/GB Cloud SIEM Enterprise (CSE): 25 credits/GB Frequent Analytics: 9 credits/GB Logs - Storage: 0.0067 credit/GB Metrics: 3 credits/1,000 DPM Infrequent Ingest: 0.4 credit/GB Infrequent Storage: 0.0015 credit/GB Infrequent Search: 0.016 credit/Scanned GB Tracing: 14 credits/GB

Conformance packs provide a general-purpose compliance framework designed to enable you to or cost-optimization governance checks using managed or custom AWS Config rules and AWS Config Conformance Packs, as sample templates, are not designed to fully ensure compliance with a specific compliance standard. You are responsible for making your own assessment of whether your use of applicable legal and regulatory requirements.

The following provides a sample mapping between the Monetary Authority of Singapore (MAS) TRMG Guidelines (TRMG) January 2021 and AWS managed Config rules. Each AWS Config rule applies to and relates to one or more MAS TRMG controls. A MAS TRMG January 2021 control can be related to one or more AWS Config rules. Refer to the table below for more detail and guidance related to these mappings.
